STRUCTURED WIRING/CABLING

Listed below are some of the key services we provide:

- Network Cable Installations, Wired, Wireless and Hybrid

- Copper Cable Installations

- Fiber Optic Cable Installations

- Coaxial Cable Installations

- Cable & Wire Installations for Phone Systems, Security Systems, Alarm Systems, etc.

We also offer high quality products for structured cabling systems:

- **UTP Patch Cables/Patch Cords** - Unshielded Twisted Pair (UTP) Patch Cables and Patch Cords are used to connect two nearby components, such as a PC to a wall outlet, or a patch panel to a hub.

- **Fiber Optic Patch Cables** - Used to connect two nearby components with fiber connectors, these Cables transmit data with light, so you don't have to worry about electrical interference.

- **UTP Horizontal Cables** - These Cables are made from solid-conductor wires and typically used for in-wall premise installation. We provide high-quality Category 5e and Category 6 horizontal cables.

- **RJ45 Plugs** - RJ45 Plugs are used to make UTP Patch Cables. We carry Plugs with both flat and round entrances, for making flat cables and rounded UTP cables.
Jacks - We offer a vast selection of jacks, so you can complete and customize your networking outlets.
Outlets and Faceplates - Our outlets provide the perfect combination of insert and faceplate features. They are the hardware you need to interface patch and horizontal cables.
Inserts - We carry a full array of inserts for all your networking needs. They snap easily into a faceplate, to make your workspace network-ready.
Patch Panels - We carry a variety of patch panels, featuring from 12 to 96 ports. We provide everything you need to set up a manual switching center for incoming and outgoing telecommunication and electronic lines.
Racks & Cabinets - We offer a wide range of racks and enclosures to store, secure, and organize your data and voice equipment. They help ensure that your devices run effectively and efficiently.
Cable Management - We provide various types of cable Management. From a 19-inch rack-mountable panel for racks and cabinets, to simple cable ties, we have the best ways to keep your network organized and your cables optimally arranged.
Networking Tools, Kits & Testers - Our extensive line of tools includes everything you need to connect a high-performance network.
Raceways - Our Raceway systems protects and conceals networking cables while eliminating the need to run cables behind the wall.
